

Gorman Christian Academy Technology Lab:

We expect to create many exciting opportunities for students to expand their understanding of computer technology. Our computer lab will be used for teaching students at every level. Part of the training your child receives will require accessing information on the internet. Also, there will be times when the lab is open for unstructured computer use and internet access will be available. We don't want you to be concerned about the kind of information or web sites your child is exposed to during these times. A staff member will provide supervision any time the lab is open and it will be closed when no one is available to monitor activities; there will be no exceptions.

Our protection of your child begins with their adherence to our acceptable use policy. It will be strictly enforced. Please review this policy with your child. If the terms of this policy are understood and acceptable to you, please complete this form and return it to your child's teacher. It will be delivered to the Technology Teacher. Your signature verifies that you accept our policy and are allowing your child internet access. Without parental consent we will not permit a student to connect to the internet. The purpose of this policy is to create a safe learning environment for every student. We appreciate parents who join with us to support and enforce the terms of this policy.

Have a great year!

Acceptable Use Policy:

1. Use of the computers and the internet for non-school related activities during school hours is not permitted.
2. Use of the lab without staff supervision is not permitted at any time.
3. No IM (instant messaging) permitted during class time, email, checking facebook, etc.
4. Tampering with files or disks that do not belong to you is not permitted.
5. No one using the internet is permitted to reveal personal information about themselves, the school or any person associated with it at any time.
6. Deliberate and willful destruction of equipment by a student will result in replacement costs being charged to their account.
7. We must comply with copyright laws.
